Inspiration

Throughout this brochure you will find plenty of inspirational ideas, handy tips and the latest bedroom furniture trends. Our showroom is full of stylish displays where you can interact with our beautiful products and see for yourself the huge choice of options available. We work with you every step of the way to bring your ideas to reality.

Measure

The best way to get an understanding of what you can do with your space is to measure it. This will help guide us on the overall size you have, as we ensure our wardrobes are custom built to fit your space, rather than using standard door sizes. For advice on measuring your wardrobe see page 27.

Design

Our website has an easy to use, state of the art online configurator where you can design and price your own wardrobe. If you'd prefer to visit our Showroom, our friendly and experienced designers will be happy to guide you through the process to choosing your dream furniture.

Whichever option you choose, we will work with you to ensure your design meets your exact needs and provide you with a no obligation, personalised quotation.

Order

Once you are happy with the design of your new wardrobe, we will place your order and begin manufacturing. Your wardrobe will usually be ready for you within 3 weeks.

We use a network of Approved Installers who have all agreed to our code of conduct, meaning they are always reliable, produce excellent work and guarantee no mess.

If you choose to have your wardrobe installed by our approved fitters, before we start manufacturing we will arrange for them to visit the site and measure it perfectly for you.

Bespoke Manufacture

Our Quality Control department will check your order to make sure no detail is overlooked.

Your order will then be manufactured to your exact measurements from quality raw materials in our own factory based in Derbyshire. We will also arrange and confirm delivery to you on the next available date.

Delivery & Installation

We deliver nationwide using our own transport so can guarantee your wardrobes will arrive in pristine condition.

We will give you a delivery day and timeslot so you don't have to wait in all day.

Our fitter will install your custom-made furniture on the agreed date, leaving it clean and ready to use.

Our products are well engineered to stand the test of time. For added peace of mind, Gliderobes offer a 10-year guarantee, meaning you can enjoy your wardrobe for many years to come.

Help measuring?

Scan the QR code below for our handy guide which shows you the quickest and easiest way to measure.

It's best to take readings of each measurement in 2-3 places to check if your walls and floors are level.

If there's any obstruction in the space, such as a chimney breast, it's best to sketch us a quick plan.

We also need to know what the wardrobe meets on the left-hand and right-hand sides – is it wall to wall, or do you need end panels?

Don't worry – if you've chosen to have your wardrobe installed by us, one of our fitters will attend the site before manufacturing to professionally measure the space and ensure your furniture will fit perfectly.

Your measurements are only used to provide a no-obligation quote.

I cannot believe anyone would give these guys less than 5 stars!....

I'd read a review when looking at using Gliderobes, that said, they'd thought other reviews were too good to be true, but once they'd used them, they realised why people raved about them. Now so do I!..... These guys are great, give outstanding customer service (nothing seems too much trouble) and they're incredibly good value for money.

Excellent, professional installation and top quality wardrobes....

Brilliant service from start to finish. Website makes it easy to plan and choose which elements we wanted included in the wardrobes. Great advice from the team as to which finish would be suitable for the door finish and a bonus that the surveyor came out to check the measurements before manufacture. If I could give more than 5 stars I would - will definitely recommend Gliderobes. Thank you for our lovely, complete bedroom.
